© 2006 All Rights Reserved

👁 The Alcohol Problem

Provides an overview of the alcohol problem in society hence, providing a basis for reasonable service.

👁 Legal Issues

Discusses case law and statutes pertaining to the liquor industry. DRAM shop is covered in detail.

👁 Alcohol Basics

Examines alcohol's history, chemical makeup, production, and consumption/absorption. This section is designed to educate the consumer and dispel myths about impairing quantities.

👁 Identifying the Impaired

Discusses ways to better identify impaired customers and how to properly deal with them.

👁 Eye Examinations

Demonstrates how to differentiate between alcohol and drug influence through eye movement (HGN) and pupil size.

👁 Is it Alcohol or is it Drugs?

Introduces the participant to the (7) categories of drugs and specific signs and symptoms associated with them.

👁 Detection Techniques

The consultants demonstrate common divided attention tests which enable the participant to better assess impairment.

👁 Identification

Discusses what is an “acceptable” form of identification, how to recognize false identification, and demonstrates/ displays new verification technology.

Let us create a program that's right for you.
